

# Tori Riemersma • *Product Designer*

Portland, OR | 480-378-8703 | [triemers12@gmail.com](mailto:triemers12@gmail.com) | [triemers.github.io](https://triemers.github.io)

## EXPERIENCE

### User Experience Designer • *Pay Ready* • Dec 2025 – Present

- Designed and built the full UI of an AI-powered chat app connecting property managers and tenants, owning Figma through to frontend in SCSS and Ruby across web and mobile, and collaborating with backend engineers to ship a cohesive, production-ready product.
- Modernized the RecoveryCenter web app via a Bootstrap 5 migration, refactoring modules and interactions in SCSS and Ruby to reduce technical debt and establish a consistent visual foundation for the team.
- Translated client feedback sessions into a navigation redesign for ResidentCenter and RecoveryCenter that promoted frequent actions (e.g., account search) to the top level, eliminating excess scrolling and receiving strong client praise at review.

### UX Designer • *The Chronicle of Higher Education* • Aug 2022 – Jul 2025

- Overhauled the design language of Chronicle.com through a major CMS version update, eliminating technical debt, refreshing legacy components, and delivering a cohesive visual system used across all digital products.
- Designed the end-to-end interface for Ask Chron, The Chronicle’s AI research assistant, from early concept through to a shipped, subscriber-facing product across web and mobile.
- Built and maintained a Figma-based design system with CSS, LESS, and JavaScript documentation, giving the team a single source of truth that accelerated design and development consistency.
- Audited and remediated accessibility across the full product suite, achieving AAA-level WCAG compliance, the highest standard, for all offerings.
- Ran user research, interviews, and A/B tests with subscribers to drive experiment-driven iterations on premium tools, including the Higher Ed Pay Tracker.
- Facilitated stakeholder workshops to define a new header system for Chronicle.com across web and mobile, aligning content strategy, user needs, and business requirements into a shipped solution.

### Founding UX Designer • *Lost Canyon Imports* • Feb 2021 – Jun 2022

- Led user research, competitive analysis, and A/B testing to inform experiment-driven branding strategy, then designed and implemented a responsive website for web and mobile users applying UX heuristics for clear information architecture.

## EDUCATION

### M.P.S. in UX Design • *Maryland Institute College of Art* • 2022

- Applied mixed-method research (surveys, interviews, usability testing) to validate and iterate on real product decisions throughout the program.
- Completed end-to-end projects in e-commerce and app design, with a focus on education equity and accessibility outcomes.

### B.A. Music Education • *Arizona State University* • 2016
